

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application.

LISTING OF CLAIMS:

1-2. (Canceled)

3. (Currently amended) A wireless mobile communication apparatus, comprising: a wireless communication interface;

a session manager coupled to said wireless communication interface and cooperable therewith for transmitting a request to establish a wireless communication session with another wireless communication apparatus, said session manager including a resource controller. The apparatus of Claim 2, wherein said resource controller is cooperable with said wireless communication interface for receiving said information, enabled to participate in a mutual agreement with said another wireless communication apparatus whether said wireless communication session will be established, said resource controller, after transmitting said request, for participating in wireless communication of communication information for use in deciding whether said wireless communication session will be established; and wherein said information indicates whether a further wireless communication apparatus has objected to establishment of said wireless communication session.

4. (Original) The apparatus of Claim 3, wherein the another wireless communication apparatus is a wireless mobile communication apparatus and said resource controller is cooperable with said wireless communication interface for receiving said information from the another wireless communication apparatus.

5. (Original) The apparatus of Claim 4, wherein said information is indicative of a likelihood of successful execution of said communication session.

6. (Original) The apparatus of Claim 5, wherein said information includes one of information indicative of a location of the another wireless mobile communication apparatus, information indicative of wireless communication channel conditions at the another wireless mobile communication apparatus, information indicative of wireless communication resource use in a previous wireless communication session involving the another wireless mobile communication apparatus, and information indicative of operational capabilities of the another wireless mobile communication apparatus.

7. (Canceled)

8. (Currently amended) The apparatus of Claim 3[[7]], wherein the further wireless communication apparatus is a wireless mobile communication apparatus.

9. (Original) The apparatus of Claim 8, wherein the another wireless communication apparatus is a wireless mobile communication apparatus.

10. (Original) The apparatus of Claim 8, wherein the another wireless communication apparatus is a fixed-site wireless communication apparatus.

11. (Currently amended) The apparatus of Claim 3[[2]], wherein said resource controller is cooperable with said wireless communication interface for transmitting said information.

12. (Original) The apparatus of Claim 11, wherein said information indicates an intention to establish said communication session.

13. (Original) The apparatus of Claim 12, wherein the another wireless communication apparatus is a wireless mobile communication apparatus.

14. (Original) The apparatus of Claim 12, wherein the another wireless communication apparatus is a fixed-site wireless communication apparatus.

15. (Currently amended) A wireless mobile communication apparatus, comprising:
a wireless communication interface;
a session manager coupled to said wireless communication interface and The
apparatus of Claim 1, wherein said session manager is cooperable therewith for receiving said
request from another wireless communication apparatus to establish a wireless
communication session with said another wireless communication apparatus, said session
manager including a resource controller cooperable with said wireless communication
interface, enabled to participate in a mutual agreement with said another wireless
communication apparatus, whether said wireless communication session will be established,
said resource controller, after receiving said request, for participating in wireless
communication of communication information for use in deciding whether said wireless
communication session will be established; and
wherein said information indicates whether a further wireless communication
apparatus has objected to establishment of said communication session.

16. (Original) The apparatus of Claim 15, wherein said resource controller is cooperable with said wireless communication interface for transmitting said information.

17. (Original) The apparatus of Claim 16, wherein the another wireless communication apparatus is a wireless mobile communication apparatus and said resource controller is cooperable with said wireless communication interface for transmitting said information to the another wireless communication apparatus.

18. (Original) The apparatus of Claim 17, wherein said information is indicative of a likelihood of successful execution of said communication session.

19. (Original) The apparatus of Claim 18, wherein said information includes one of information indicative of a location of the wireless mobile communication apparatus, information indicative of wireless communication channel conditions at the wireless mobile communication apparatus, information indicative of wireless communication resource use in a previous wireless communication session involving the wireless mobile communication apparatus, and information indicative of operational capabilities of the wireless mobile communication apparatus.

20. (Original) The apparatus of Claim 16, wherein said information indicates an intention to establish said communication session.

21. (Original) The apparatus of Claim 20, wherein the another wireless communication apparatus is a wireless mobile communication apparatus.

22. (Original) The apparatus of Claim 20, wherein the another wireless communication apparatus is a fixed-site wireless communication apparatus.

23-24. (Canceled)

25. (Currently amended) The apparatus of Claim 1524, wherein the further wireless communication apparatus is a wireless mobile communication apparatus.

26. (Original) The apparatus of Claim 25, wherein the another wireless communication apparatus is a wireless mobile communication apparatus.

27. (Original) The apparatus of Claim 25, wherein the another wireless communication apparatus is a fixed-site wireless communication apparatus.

28-51. (Cancelled)
